

Volunteers Needed!

September 11-14

10 AM - 2 PM

LEKT Natural Resources

Come help us learn what's hiding in the mud!

LEKT Fisheries biologists are collecting sediment samples from the **Elwha River estuary** to understand the role of the benthic community to support salmon diet. Volunteers are needed to **help sort sediment samples & identify critters.**

For more info or to sign up, contact chelsea.behymer@elwha.org
