

Due to the danger of fire, we are asking tribal community members to light and display fireworks on the beach for 4<sup>th</sup> of July celebrations.

**Be Prepared, Be Safe, and Be Responsible**

- **Keep Water Nearby**
- **Do not use fireworks on or near dry vegetation or combustible materials.**
- **Be cautious when lighting fireworks when conditions are windy. The wind could blow a burning spark and set another area on fire.**

**Please remove all garbage and clean up belongings from the beach afterwards. Your help is greatly appreciated!**
